

Dear Commissioners,

I urge you to save our post office and fire Mr. DeJoy. His shenanigans during the last election cycle were politically motivated and nearly cost us our democracy. Now his 10 year plan is nothing more than a naked attempt completely cripple the Post Office. It should help his business at UPS but not the millions of Americans who depend on reliable mail service or states who depend on TIMELY mail service to conduct elections. The dismantling of sorting machines AND their destruction was truly a travesty that harmed our postal service at a time when it was crucial to democracy.

Rate hikes, delayed and minimized postal service are corner stones of voter suppression and of DeJoy's 10 year plan.

FIRE this partisan creep and do it now!

Carolyn Bissell
